

Ref # dated 22.11.2017

**To director of the
company**

Group of the companies "OC "Gazinvestproject" LLC is a leader in manufacturing and supplying of chemicals for oil and gas industry in Ukraine. Chemicals that we produce:

#	Name of products	Cost in US \$
<i>Products of own production</i>		
1	Bactericide agent «GIP-CIDE»	negotiable
2	Defoamer «Defomax-GP»	negotiable
3	Clay shale inhibitor «IGS»	negotiable
4	Filtration control agents «GIP-FILT A» (Modified starch)	negotiable
5	Combined reagent «Drill optima» (lingitic acrylic polymer)	negotiable
6	Modified deflocculant «Lignopac-M»	negotiable
7	Surface additive, prevent balling «P.A.R-1», «P.A.R.-2», «P.A.R.-3»	negotiable
8	Lost Circulation Material «Eco-mix»	negotiable
9	Lost Circulation Material «GIP-seal»	negotiable
10	Antistuck additive «PIPE LUBE»	negotiable
11	Lubricant «Eco Lube»	negotiable
12	Lubricant «Drill oil»	negotiable
<i>Other specialized chemicals</i>		
13	Filtration Control Agents «PAC-R»	negotiable
14	Filtration Control Agents «PAC-LE»	negotiable
15	Viscosifier «Xanthan Gum»	negotiable
16	Sulfonated asphalt	negotiable
17	Marble aggregate (calcium carbonate): 5, 25, 50, 100 mkm	negotiable
18	Potassium chloride (KCl)	negotiable
19	Bentonite (clay powder)	negotiable

20	Hydrated lime	negotiable
21	Citric acid	negotiable
22	Caustic soda	negotiable
23	Hydrolized polyacrylamide	negotiable
24	High temperature modified starch (Carboxy methyl starch)	negotiable
